Last Updated: July 15, 2020

(Subject to Change)

Van Information:

A van will be available, courtesy of Olson Plumbing and Heating, to transport competitor gear from the Start Line area to the Summit of Pikes Peak – America's Mountain on Race Day. If you have gear you want to place in the van, it is important that you mark the gear with your name and race number. All gear must be placed in the van before 6:30 a.m. on Race Day. The van will be parked on driver's right just uphill from the car pits at 5:15 a.m., and will depart for the Summit at 6:30 a.m. sharp. After the race is completed, the van will follow the Parade of Champions down to the Start Line area. Any items still in the van will be placed by the hospitality tent after the race.

Phones:

Competitors are encouraged to send their mobile device in the gear transportation van. Although not guaranteed, service at the Summit is more reliable than other places on the Mountain. Competitors can use their phones to communicate with family and friends and capture podium photos.

Prohibited Items:

Do not use the van for tool boxes and/or extra parts.

Risk:

The PPIHC is not responsible for any items placed in the van. It is the competitor's responsibility to retrieve their items.
