

Dear PPIHC Rookies,

As part of the SMART Program, we have a group of veteran competitors that will serve as mentors to rookie competitors during Race Week. Prior to Race Week, feel free to contact any of the mentors listed below with questions you may have regarding racing on Pikes Peak.

Additionally, the mentors will meet with rookies each day of practice, after the driver's meeting, to go over any additional items that may be helpful in your practice sessions. They will also be available, when feasible, after practice sessions to answer additional questions.
